PROPOSED CONTESTED CASE DECISION – UNIVERSITY OF IOWA

University of Iowa

On June 11, 2004, the University of Iowa (University) filed an appeal with the department from a condition of National Pollutant Discharge Elimination System (NPDES) Permit No. 52-25-0-06, which was issued for the University's Municipal Separate Storm Sewer System (MS4) on May 10, 2004. The specific appealed condition related to the frequency and party responsible for conducting inspections.

A hearing regarding the appeal of the NPDES Permit was held on December 20, 2007 and the administrative law judge (ALJ) issued a Proposed Decision on January 4, 2008. In the Proposed Decision, the ALJ affirmed this NPDES condition.

There has been no appeal of this Proposed Decision. In the absence of an appeal the Commission may decide on its own motion to review the Proposed Decision. If there is no review of this Proposed Decision, it automatically becomes the final decision of the agency.

Edmund J. Tormey, Chief
Legal Services Bureau
